

St Bride's Church, Fleet Street, in the City of London

The Organ

The gift of Colonel the Lord Astor of Hever, the organ was built by the John Compton Organ Company in 1957 at the time of the rededication of the present church. The console is in the south aisle. The 3,846 pipes are concealed in openings in the west wall with the Positive and Choir Organs centered behind the Minstrels Gallery. The Great and Swell Organs are in the south-west chamber, the Solo Organ is in the north-west chamber. The Pedal Organ is distributed in all three chambers.
